

# What's Your SPRITE NAME?

Use your initials to find out what your sprite name is! For example, if your name is John Doe, write down the name in the First Names column that begins with the letter "J" and the name in the Last Names column that begins with the letter "D." Your sprite name would be Juniper Drizzledrop! You can also try using the last letters of your first and last name. For example, John Doe would then become Nutmeg Elderberry. You can try using your middle initial too!
