

JOURNAL-KEEPING EXERCISE

For a week, write down your observations of the animals you see around where you live. Describe them and draw them. Pay special attention to:

Birds sitting in trees or on wires. Do you know what kind they are?
How many are there?

Squirrels. What colors are they?
Do you see what they eat? Where they live?

Dogs and Cats. Do the dogs bark? Are they boys or girls?
What color are the cats? Do they eat grass? Chase the squirrels?

Are there lizards where you live? Raccoons? Rats?
What else?
